Agile methodology.

Experiences

2023
|
2024

Fullstack Engineer

Theodo - iDealWine

📍 Paris, France

- Key role in the \$1.5 million redesign of an e-commerce site with over 1M products and 700k users
- Gathered business requirements with a Product Owner, independently established a strategy, and challenged it with a team of software engineers
- Actively participated in setting up a scalable and resilient architecture, ensuring optimal performance and continuous site availability
- Autonomous development and code reviews to ensure merged code quality
- Integrated new features and optimized user experience

2023

Full-Stack Developer

TheCodingMachine

📍 Paris, France

- Solely responsible for various project developments, ensuring their maintenance and optimization
- Actively assisted the architect in designing and implementing a large-scale project with a substantial budget, providing practical and technical perspective
- Developed the first pages of the new project, ensuring a solid foundation and smooth integration of initial services
- Implemented best development practices to improve code quality and reduce technical debt in legacy systems

2014
|
2023

Content Creator

YouTube - Twitch

📍 Paris, France

- Produced over 900 high-quality videos using Premiere Pro, totaling over 14.4 million views and generating massive viewer engagement.
- Created entertaining content, attracting over 7,000 simultaneous viewers during live streams.
- Designed innovative and distinctive visuals for graphic identity using Photoshop, strengthening brand recognition.
- Created and managed a YouTube channel with over 55,000 subscribers, with continuous growth through effective content strategies and trend analysis.

Selected Personal Project

2024

Movie Site with Indexing

decouvertecinema.fr

- Developed a movie site with a robust backend that automatically retrieves data via an external API and stores it in an optimized database
- Created indexing documents for instant filtering and quick search, demonstrating the power of indexing
- Designed a responsive front-end allowing users to filter movies by genre, year, rating, etc., with results displayed instantly

Education

2023
|
2024

IT Solutions Designer and Developer

École 42

📍 Paris, France

- Training followed alongside my work, with evening and weekend sessions, due to a desire to learn low-level programming and meet more developers

2022
|
2023

Web Development Bootcamp

Web Code School

📍 Paris, France

- Intensive 5-month bootcamp in web development, with a strong emphasis on teamwork and communication
- Effectively collaborated on projects from the first weeks, meeting deadlines and assigned tasks
- Took on a leadership role, distributing tasks according to everyone's skills and ensuring the quality of the final work
