TECHNICAL SKILLS

TypeScript
React, Next
Nest, Express
SQL
Prisma
REST API
OpenAPI
Orval
TailwindCSS
Prismic
Symfony
API Platform
Sylus
Algolia
ReactQuery
AutoHotkey
RabbitMQ
C
System Scripts
Reverse Engineering
Git
GitHub
Nx
Redis

Experience

- 2024

2025
- Fullstack Engineer

Uptoo

- Created a modular NX monorepo (microservices) to enhance maintainability
 - Implemented advanced debugging: reduced bugs, strengthened code quality
 - Developed a custom Strapi plugin to streamline content integration
 - Collaborated with team to ensure consistent and scalable technical vision

Paris, France
- 2022

2024
- Fullstack Engineer

Theodo - iDealWine

- Redesigned a high-traffic e-commerce platform (+1M products, 700k users, €120M revenue)
 - Autonomous technical/product scoping with POs and leads
 - Robust architecture ensuring 24/7 high-performance availability
 - Continuous delivery of key features with strong ownership culture

Paris, France
- 2021

2022
- Fullstack Engineer

TheCodingMachine

- Autonomous management of high-stakes client projects: end-to-end responsibility
 - Built a product from scratch with architect on significant budget
 - Delivered initial components with long-term vision
 - Structural refactoring to upgrade legacy technical systems

Paris, France
- 2014

2025
- Content Creator

YouTube - Twitch

- 20M views, 2.4M hours watched, 55k subscribers, 900+ videos
 - Engaging live formats (+7000 concurrent viewers)
 - Organic growth strategies and trend analysis

Paris, France

Selected Projects

- 2024
- Specta - League of Legends

Node.js, OBS, Riot API, AutoHotkey

- Analysis bot, intelligent replay filtering
 - Distributed architecture with Prisma + RabbitMQ
 - Designed for coaching, content creation, or personalized VODs
- 2024
- Real-time E-commerce Dashboard

Next.js, WebSockets, PostgreSQL

- Interactive dashboard with live visualization, advanced UX, data simulations
 - Admin interface, dynamic filters, complete responsive design
- 2024
- Online Manga Reader

Fastify, Next.js, MangaDex API

- Smooth manga reading with backend proxy, anti-hotlink bypass
 - Node.js server, PM2, HTTPS via Nginx + Certbot, logs & multi-app reverse proxy

Education

- 2020

2021
- Software Developer

École 42

- Low-level programming, algorithms, intensive peer-learning projects

Paris, France
- 2021
- Web Development Bootcamp

Web Code School

- 5-month intensive training, technical leadership and complex project management

Paris, France
