TypeScript, JavaScript
React, Next.js
Node.js, NestJS, Express, Fastify
SQL, PostgreSQL, Prisma
REST API, OpenAPI, Orval
RabbitMQ, Redis, WebSockets
Docker, PM2, Nginx
Git, GitHub
Nx
Agile methodology

Professional Experience

2024

2025

●

Fullstack Engineer

Uptoo

- Led the development of a modular Nx monorepo architecture, reducing deployment time by 40% and improving team productivity
- Implemented comprehensive debugging solutions that reduced production incidents by 30% and improved system reliability
- Architected and developed a custom Strapi plugin that streamlined content management operations by 20%
- Collaborated with cross-functional teams to establish best practices and ensure code quality across the organization

Paris, France

2022

2024

●

Fullstack Engineer

Theodo — iDealWine

- Redesigned a high-traffic e-commerce platform (+1M products, 700k users, €120M annual revenue)
- Led end-to-end scoping with Product Owners and tech leadership
- Architected 24/7 high-availability infrastructure ensuring seamless customer experience
- Shipped core features continuously with strong ownership and agile methodologies

Paris, France

2021

2022

●

Fullstack Engineer

TheCodingMachine

- Managed strategic, high-stakes client projects autonomously from kickoff to deployment
- Built enterprise-grade solutions from scratch in collaboration with technical architects
- Modernized outdated legacy systems into modular, scalable backends

Paris, France

2014

2025

●

Content Creator

YouTube — Twitch

- Achieved 20M+ views and 2.4M hours watched across 900+ published videos
- Created live formats engaging 7000+ concurrent viewers organically
- Devised and executed growth strategies through trend analysis and content optimization

Paris, France

Selected Projects

2024

●

Specta — League of Legends Replay Automation

Node.js, TypeScript, Prisma, RabbitMQ, OBS

- Built distributed replay automation system reducing manual review time by 95%
- Designed a scalable backend architecture for coaching and content personalization

2024

●

Real-time E-commerce Analytics Platform

Next.js, TypeScript, WebSockets, PostgreSQL

- Engineered real-time visualization dashboard for e-commerce event tracking
- Delivered admin tools with dynamic filtering and full responsive UX

2024

●

High-Performance Manga Reader

Fastify, Next.js, TypeScript, MangaDex API

- Developed a secure, high-performance manga reading platform with 99.9% uptime
- Implemented advanced caching and proxy systems to optimize content delivery
- Built comprehensive monitoring and logging system for production deployment

Education

2020

2021

●

Software Development

École 42

- Low-level programming, advanced algorithms, intensive peer-driven learning

Paris, France

2021

●

Fullstack Web Development

Wild Code School

- 5-month intensive training in fullstack development, project management, and leadership

Paris, France
